

Design Thinking for Innovation – Coursera

Assignment - Visualization

Author: Zahra

Challenge:

Create a high-fidelity wireframes / prototype for an e-Travels Mobile Application. Please use the Figma prototyping tool (www.figma.com) to design your solution.

Important: you must create the prototype individually and attach the screenshots. Briefly describe the relevant UI functionalities in each screen.

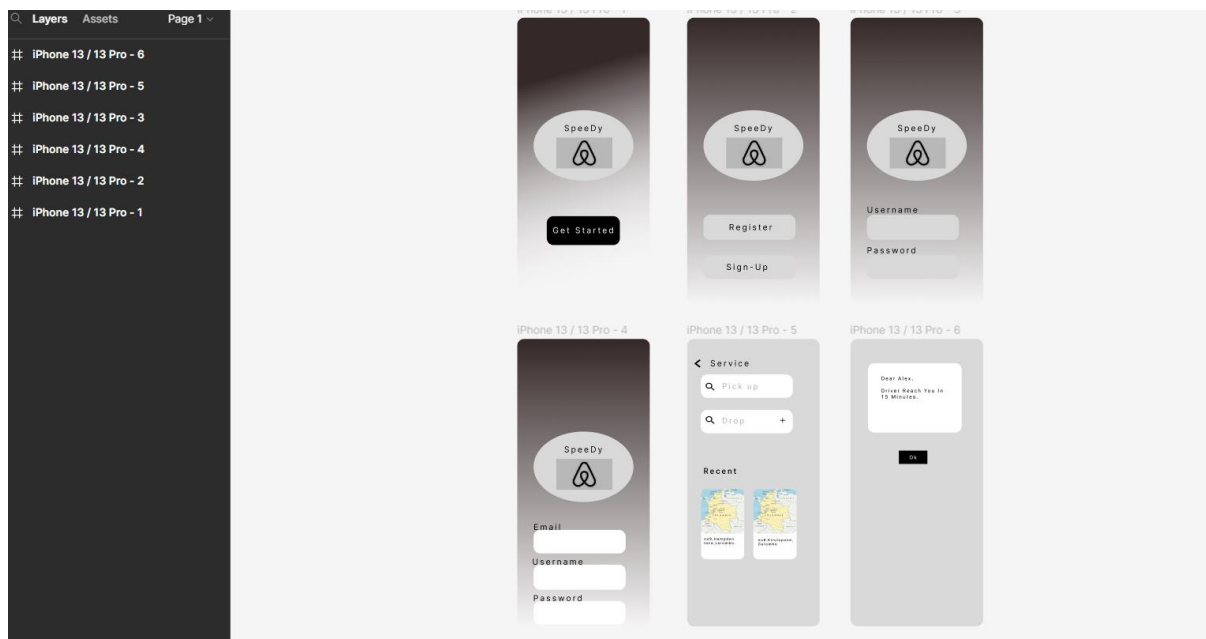

Add your created Figma project sharable link to the design shown below

(Figure 1 - Get Sharable Link in Figma Project). We will run and evaluate your Figma project using this link.

Selected Tool: (Figma Prototyping Tool)
